It was announced Tuesday morning by Judge Frank H. Poirer of the Willimantic police court that his selection of a probation officer to fill the vacancy caused through the death of William C. Lyman was Oliver M. Young of No. 255 High street, who in his estimation would be found efficient in every way. This appointment became effective February 1. Mr. Young is 44 years of age, was born in East Killingly Jan. 30, 1875, and came to Willimantic with his parents when about six years of age. He received his early education at the Windham street schools and was graduated in 1915. He entered the Willimantic high school and was graduated with the class of 1919. The last class taught by Professor F. H. Beede at the old Nichols school building. While a student at Willimantic high school Mr. Young worked mornings and evenings at the printing and publishing of the Pioneer. After graduating from the high school Mr. Young continued to follow the printing trade working with local concerns for about nine years. At this time he entered the

QUIT MEAT WHEN KIDNEYS BOTHER

TAKE A GLASS OF SALTS IF YOUR BACK HURTS OR BLADDER TROUBLES YOU

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous emulsion is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Mrs. Gaudreau was unable to arise and was picked up by John Keegan and assisted into his store nearby. She was taken to her home in an automobile and a doctor was called to get her ankle. This is the first serious accident to attract the attention of the public, but many of the sidewalks of this city have not yet been cleared off and are a menace to those who use them daily.

Physician Explains Who Should Take Nuxated Iron

Practical Advice on How To Help Build Up Great Strength, Energy and Endurance.

The accompanying article of Dr. Sullivan should be carefully read by every man and woman who wants to possess perfect health, great physical endurance and a strong, keen mentality. Dr. Sullivan tells how to increase the iron in our blood and thereby gain greater physical and mental power, brighter intellects and better health.

But in my opinion you can't make strong, vigorous, successful, sturdy men and healthy, strong-willed women by feeding them on metallic iron. The old forms of metallic iron must go through a digestive process to transform them into organic iron—Nuxated Iron—before they are ready to be taken up and assimilated by the human system. Notwithstanding all that has been said and written on this subject by well-known physicians thousands of people still insist on dosing themselves with metallic iron, simply because it costs a few cents less. I strongly advise readers in all cases to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble then purchase Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken preparations such as Nux and iron and other similar iron products and failed to get results, remember that such products are an entirely different thing from Nuxated Iron.

For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable and all "run down," while at 50 or 60 with plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy.
